

I, unfortunately spent the vast majority of tonight doodling, as seen from the evidence  
compiled. I am so very tired and there is so much I can report about. The problem is I am  
so tired I f... arrange my thoughts in a way that w...  
under... are not me. There is a horrifying pe... ing  
art. It... kly, quite scary. I felt the need to... m, to  
show... at is not passive. Like everyone el... s are  
com... subjective feelings and environme... m tired.  
I am... ly stop skipping lunch and break... ing too  
busy... been aching for the past three hours. I simply cannot  
thin... s when my mind is so preoccupied with my body. I almost  
fell... he lectures. A... g to other visitors, the lectures were  
gre... ny bed, w... I have been overworking  
my... s are... It is incredible to me  
ho... e people can be... versatileness of  
female performan... art... flexibility in her  
movements, and... cloth could provide.  
In my eyes... an old woman all at once  
and... itinued when she became  
... Jung's masterpiece can also be  
... through the audience, as if  
there... ul game with the known  
characters... too, can be. But perhaps,  
flexibility is in my... practice this morning. Who knows?  
After all, while flex... ility... ight, I suspect my consciousness is not quite  
so flexible as to allow me to lea... dy and truly focus on my spying mission.
